The APEGBC Member Insurance Program

What is the APEGBC Member Insurance Program?

Available exclusively to members of the Association of Professional Engineers and Geoscientists of BC (APEGBC), this is a special group insurance program which offers you superior coverage at reduced rates.

Launched in 1989, The Program has since been expanded to offer coverage in the following areas:

HomePlan – The HomePlan (also available for condos and tenants), is a comprehensive policy which includes many special coverages and enhanced limits at no extra charge.

AutoPlus – Is a private auto insurance policy for collision and comprehensive that provides you with better coverage at a lower price. When you insure your principal residence under the APEGBC Member Insurance Program, you can save 10% with a “multi-policy” discount.

HomeWork – Provides coverage for your home-based business, including off-premises equipment and liability protection.

Umbrella Liability – Combines and increases the liability limits and coverages offered by your home, auto, seasonal and rental properties, water craft and recreational vehicle policies – at a low cost.

The APEGBC Member Insurance Program is sold and serviced by Park Insurance, a Vancouver-based insurance broker and underwritten by the Northbridge General Insurance Corporation, one of the country’s largest insurance companies.
